

Name: _____ Date: _____ Period: _____

Latitude and Longitude

1. What is the name of the “top” half of the Earth? _____
2. What is the name of the “bottom” half of the Earth? _____
3. What are these two halves separated by? _____
4. Define latitude: _____
5. What is another name for lines of latitude? _____
6. What are the latitudes of the following locations?

Equator =	Arctic Circle =	South Pole =
Tropic of Cancer =	Antarctic Circle =	Mamaroneck =
Tropic of Capricorn =	North Pole =	

7. What are the latitudes of the following points?

A =	C =	E =
B =	D =	F =

8. What is the name of the “west” half of the Earth? _____
9. What is the name of the “east” half of the Earth? _____
10. What are these two halves separated by? _____
11. Define longitude: _____
12. What is another name for lines of longitude? _____
13. What are the longitudes of the following locations?

Prime Meridian =	International Date Line =	Mamaroneck =
------------------	---------------------------	--------------

14. What are the longitudes of the following points?

G =	I =	K =
H =	J =	L =

15. What are the coordinates of the following points?

M =	O =	Q =
N =	P =	R =
